

Colors & Finishes

ST SEATTABLE®
MODEL ST.L
is a registered trademark of **ORT**

Actual colors may vary from printed colors. Custom colors, finishes and upholstery available upon request.

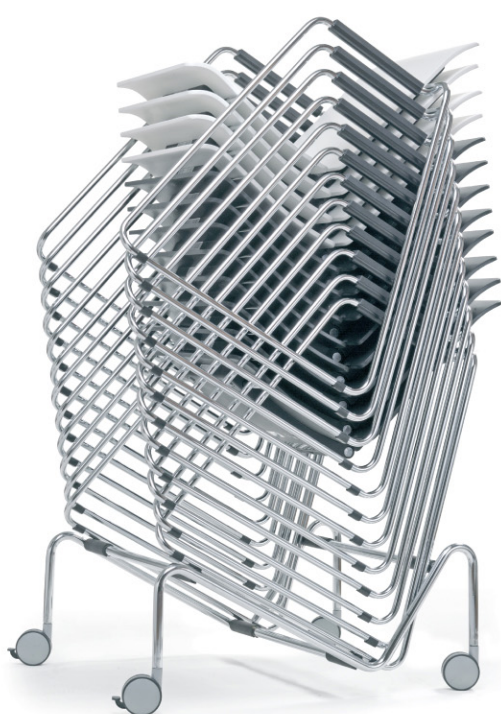

Flexibility

SEATTABLE provides for shorter set-up/breakdown times in your facilities. Individual event specifics will determine how many SEATTABLES would be used as seats or tables. You no longer need to bring in or out furniture every time you rearrange a space.

SEATTABLE's ability to stack onto a light and manoeuvrable matching trolley makes it even easier to completely clear a room, freeing available space when needed. Dedicated storage space for tables and chairs will no longer be a necessity.

Space Saving

Seat or Table ?

just make a flip

Why is it different?

SEATTABLE gives unparalleled flexibility. A complete hall can be arranged, changed or cleared - all within minutes. SEATTABLE's design gives a fluid and smooth transition from seat to table and back again. One person, one hand, one smooth action. Just make the move.

Built to the highest standards, the innovative and award winning SEATTABLE is designed and manufactured with particular attention to detail. Certified to meet LGA (Germany), ANSI/BIFMA (USA) and JIS (Japan) standards, quality & safety are guaranteed.

Comfort

Featuring clear lines and an ergonomic form, SEATTABLE has a large practical work top. The frame design enables the chair to fit comfortably close to the table, allowing optimization of available work space.

No limits to change

Arrange or change any set of 12 work desks and seats into an auditorium seating 24 in just one minute. With no need for extra help or additional furniture. Whether university, training center, conference room, institution, library, museum, hotel or hospital... no matter! Available in multiple colours, finishes and upholstery options, SEATTABLE suits virtually any environment, making life easier.

Table or Seat?

It's up to you
